

DIANA M40NE NIGHT VISION MONOCULAR MOUNT FOR 5.56MM AK RIFLE OPTIX CODE:NE 20179.1000-01 (A)

APPLICATIONS:
Defence & Security,
Law enforcement

OPTIX Diana M40NE Night Vision Monocular Mount for 5.56mm AK rifle OPTIX code: NE 20179.1000-01 (A) is a multipurpose day and night system with built-in red dot capability, designed for military and law enforcement units. It is a combination of red dot collimator day sight and night vision monocular.

It can be mounted on the Picatinny rail of a weapon with standard 30 mm rings or with flip to side (FTS) mount. Illuminated red dot collimator sight is improving accuracy and enabling quick target acquisition

OPTIX Diana M40NE Night Vision Monocular Mount for 5.56mm AK rifle OPTIX code: NE 20179.1000-01 (A) can serve the following tasks:

- Precise shooting day and night
- Field observation and patrolling;
- Field reconnaissance.
